GUEST-LIST WORKSHEET

Narrowing the guest list is never easy. Be that as it may, it's got to be done. If you're having difficulty getting started, use this preliminary worksheet to separate your absolute "must have" guests, from your "like to have" guests. Don't overthink the names before writing them down. Trust your first response and jot it down. This isn't your final list, just a starting point.

FAMILY | MUST HAVE	
Name	# of guests
